Dear "Sharon Roberts" <[Sharon.Roberts@uspto.gov](mailto:Sharon.Roberts@uspto.gov)>

This email is a follow-up to my phone message that I left for you on Friday, April 21, 2023. Christopher Hayden from the California Secretary of State's Office who has been working with me to solve my problem as to how to get you what you apparently need and to not potentially sacrifice our lives in the process.

Christopher Hayden had first suggested that I call you and then suggested that I use your computer systems to make my ("DOMICILE ADDRESS REQUIRED") private.

Sharon Roberts, it would appear that your government entity does not want to endanger the lives of those that have registered a trademark like ourselves. Christopher Hayden, also suggested that I can use your own computerized system to keep private my ("DOMICILE ADDRESS REQUIRED").

When I initially read that statement I was not sufficiently (I am struggling to figure out what words to use) encouraged, and or relieved that your government entity would have enough safeguards to prevent hackers from gaining access to "off limits" portions of your computer system.

Sharon Roberts, are there things that you can tell me for me to have more confidence In your Computer Systems?

Sharon Roberts, you can answer the above stated question either in riding by e-mail or you and I can have a phone conversation obviously before our time expires in the late afternoon time (EASTERN TIME).

I am including all written correspondence between myself and ultimately the "Safe at Home Administration".

Because normally most e-mail software and programs operate from the standpoint of having the most current at the very top of the document I am doing so in this e-mail to you and to the "Safe at Home Administration".

I have gone through a nightmare to get this done with the "Safe at Home Administration" of the California Secretary of State's Office. On the possibility that I have not made it clear to you Sharon Roberts, that we have received and continue to receive all kinds of threats against us including but not limited to, our own deaths.

Obviously I am referencing your online document located at the following address:

<https://tsdr.uspto.gov/documentviewer?caseId=sn78030621&docId=00A20221028081505#docIndex=0&page=1>

Again in an attempt to minimize confusion about what was written by myself and what was written by other individuals I am putting the characters of ++++++ and the characters of ++++++ IN THIS DOCUMENT what was written by myself.

The text of e-mails BY others in between the characters of ===== and the characters of ===== IN THIS DOCUMENT.

I am using Accessibility software including but not limited to Speech Recognition Software (SRS).

P.S. 2:  
Beginning in June of 2022 I decided to begin the process of keeping track of how much time each document takes to work on from start to finish.

I thought about whether to do what I have accused numerous government agencies of keeping secrets or as I like to put it "These are not top grade military secret issues, you are not running the Pentagon or some other three letter top secret government entity."

So, I am not creating some kind of secret phrasing, codes, etc. Again, one of the main reasons that I am doing this so that I would know how much time each document takes to work on from start to finish.

Dear "Christopher Hayden", "Safe at Home Administration"

Thank you for taking the time to speak with me and hearing me out about some of my frustrations with the "Safe at Home Administration" within the California Secretary of State.

As per your request I am resending an updated version of the email that I sent last night to the "Safe at Home Administration" <[safeathome@sos.ca.gov](mailto:safeathome@sos.ca.gov)>

I communicated to you that I am disabled and where my disabilities are really affected are in being able to type. As I told you I need to type using speech recognition software which is only about 25% accurate. I am however completely able to read any emails but my disabilities greatly affect my ability to respond to emails by another email for myself. I hope that I have made myself clear on this very critical point.

Because normally most e-mail software and programs operate from the standpoint of having the most current at the very top of the document I am doing so in this e-mail to you and to the "Safe at Home Administration".

Thank you for your willingness to make a commitment to me that you would reach out to the "Safe at Home Administration" <[safeathome@sos.ca.gov](mailto:safeathome@sos.ca.gov)> to bring a resolution to this matter to my satisfaction.

I have included the text of your e-mail in between the characters of ===== and the characters of ===== IN THIS DOCUMENT.

Hi Robert,

I'm with the Secretary of State and I'm reaching out to you regarding your inquiry into registering a business. What kind of business are you looking to register? And would this be a business entity from another state or country or will the business be a domestic entity?

Thank you,

Christopher Hayden

Dear "Safe at Home Administration"

I do require a different type of assistance. The USPTO.GOV United States Patent and Trademark Office (USPTO) requires that I give them my home address ("DOMICILE ADDRESS REQUIRED") for my Registered Trademark and they will not take a P.O. BOX. I submitted that already and they rejected it and gave me 6 months to fix it or I lose the trademark and the money spent on the registration. We are days away from that 6 months deadline.

I already have a "Safe at Home" program approval. I need some kind of letter, like what is done for banks to give to the USPTO.GOV so that I am protected from not having my ("DOMICILE ADDRESS REQUIRED") accessible body those that have had all kinds of threats including but not limited to our and deaths.

You can read that document for yourself which is located at:

As you can see by the above referenced USPTO.GOV document they have not given us any wiggle room. As you can also see within that document that I Robert Colaco (Not A Business) am the:

"Owner: Colaco, Robert"

Please, please, please, do not delay any more than what "Safe at Home Administration" has already delayed in getting this nightmare that I have experienced with your government entity over and done with. To say that I have been extremely disappointed, frustrated, and extremely disgusted with your government entities dealings about what you are and are not supposed to be doing it is the understatement of the millenia.

As a result again please, please, please resolve this issue no later than 4:00 PM also known as 1600 hours Pacific Time tomorrow Thursday, April 20 2023.

I am including my e-mail address that is not on our server for Citizens For A Better America(R) (CFABA.ORG) since that server will delete any attached files. So bottom line, would you kindly send what ever document(s) to both the e-mail addresses that I have listed.

I have included that text of your e-mail in between the characters of ===== and the characters of ===== IN THIS DOCUMENT.

Hello Robert,

This is the Safe at Home program at the Secretary of State's Office (SOS). We've been informed that you have been trying to reach us to register your business. I apologize if you have been trying to reach us on this matter and haven't been able to. If this is what you are attempting to contact us about, we do not register businesses. The SOS Business Programs Division should be able to assist you. If this is in fact what you are attempting to do, then we will provide them your phone number and email to contact you. If you require a different type of assistance, then please let us know.

Thank you,

Safe at Home Administration
